

Bureau of Reclamation building puts employees under 1 handsome roof

The Bonneville Construction Office has the responsibility for supervising construction activities for the Bonneville Unit of the Central Utah Project. It also has construction responsibilities for northern Utah and southwest

Wyoming. One of the bureau's responsibilities, performed in the materials control laboratory, is testing concrete and directing soil construction activities for the bureau's widespread water and dam construction activities. The

laboratory was formerly located in Lindon.

The building is on a nine-acre plot at 302 E. 1860 South, south of the Timpanogos Golf Course in Provo.

laed a couple of cars left the track crowded
ment to the event.

finished first, followed by Keith Dallin. Dal-
n two-point lead in the overall point stand-
the races, making that contest the closest
ce at Suntana.

inished third, continuing his rather inconsi-
istent climb in the point standings. Going
ents, he was fifth overall, only five points
in fourth.

in

stock main, it looked like another battle

Dan Johnson for first place, with brother Sherm close be-
hind. But a three car crash, involving John, took care of that
short-lived challenge.

Sherm Packer took over first for good in the ninth lap.
Terry Cook finished second.

Mini Stock Main

John Ostler took first in the Mini Stock main, followed by
Dave Parmley in second and John Solt in third.

Late Model Main

The big race for Dave Martinez was the Late Model main,
where he would have to go against his nemesis, Randy Hard-
man. Martinez was positioned just ahead of Hardman, giving
him a slight advantage.

Near the middle of the race, Martinez kept Hardman
frozen in third behind Clyde Ashton. Hardman finally got
around Ashton in the 11th lap and went after Martinez in
first place. He challenged for first three different times, but
couldn't take over.

Hardman seemed to have his best chance with slightly
more than a lap to go. In turns three and four of the 18th lap,
he moved to the outside, but the two cars became tangled.
Both maintained control, but Hardman lost valuable time,
which he never made up.

Martinez finished first, followed by Hardman in second,
and Ashton in third. Scott Griffiths managed to pull off a
surprising fourth-place finish, just ahead of Dan Marshall.
Marshall is in third place in the overall standings. It was
Marshall who defeated Martinez in the Late Model trophy
dash late last month in a photo finish.

Allen's Welding 19, Spanish Fork Builders 3

Allen's led 11-0 in the third inning be-
fore Spanish Fork Builders scored its
three runs in the fourth. Allen's padded its
lead with seven more runs in the final
three innings.

Gordon Brothers 21, Nebo Finance 8

Gordon Brothers led 4-0 after the first
inning and scored at least one run in each
of the other innings for the win. Nebo ral-
lied for six runs in the fifth inning but
couldn't overcome Gordon's 11-run lead.

Friday's 'B' league games

'B' league teams played only four
games last week, highlighted by two close
contests. Zions Bank, 3-4, slipped past Da-
vis Construction, 1-4, 11-10 while Healey
Plumbing, second at 6-1, beat Far West
Bank, 2-5, by one, 12-11. Frank Walker
and Ed Pruitt led the Healey hitting at-
tack, each going three for three at bat.

In the league's other two games, Valley
Bank, 1-5, collected its first win by stomp-
ing Carter Glass, 1-5, 18-8, and Taylor
Maid, 2-5, beat Swanner's, 5-2, 19-4.
